Responding to
change

over

Following a plan

Agile Principles

01 Our highest priority is to satisfy the customer through early and continuous delivery of valuable software.

04 Business people and developers must work together daily throughout the project.

07 Working software is the primary measure of progress.

10 Simplicity—the art of maximizing the amount of work not done—is essential.

02 Welcome changing requirements, even late in development. Agile processes harness change for the customer's competitive advantage.

05 Build projects around motivated individuals. Give them the environment and support they need, and trust them to get the job done.

08 The most efficient and effective method of conveying information to and within a development team is face-to-face conversation.

11 The best architectures, requirements, and designs emerge from self-organizing teams.

03 Deliver working software frequently, from a couple of weeks to a couple of months, with a preference to the shorter timescale.

06 Agile processes promote sustainable development. The sponsors, developers, and users should be able to maintain a constant pace indefinitely.

09 Continuous attention to technical excellence and good design enhances agility.

12 At regular intervals, the team reflects on how to become more effective, then tunes and adjusts its behavior accordingly.

Why the need for change ?

- Complexity of business and speed of risk
- Disruption
- Increasing demands of stakeholders
 - Risk
 - Reporting
- Talent Management

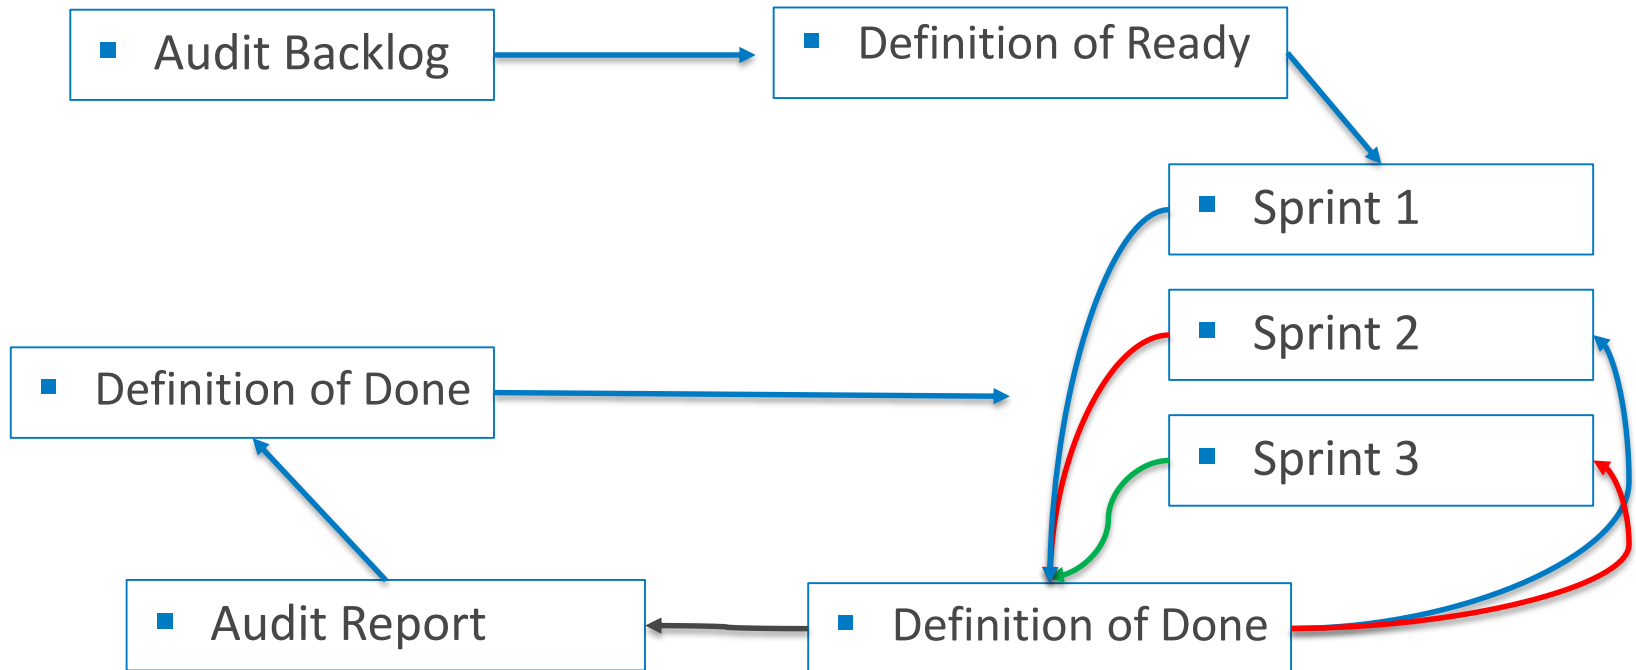

The impacts of Agile

- Stakeholders
- Audit team
- Assurance, Insights
and foresights

Key concepts : Agile Audit

TeamStore

The screenshot displays the TeamMate+ software interface. At the top, there is a dark blue header bar with a hamburger menu icon on the left, the text "TeamMate+" in the center, and a "Filter" button on the right. Below the header is a navigation bar with several tabs: "Audit File", "Insert", "Admin", "Audit Information", "Audit Schedule", and "Audit Report". The "Audit Information" tab is currently selected and highlighted with a red border. Underneath this tab, there is a row of icons and labels: a back arrow icon labeled "Exit" and "EXIT"; a folder icon labeled "Folder Template"; a lightbulb icon labeled "Objective"; a star-in-shield icon labeled "Strategic Risk"; a red shield with an 'X' icon labeled "Risk" and "GET"; a green shield with a checkmark icon labeled "Control"; a gear icon labeled "Test"; and a stack of papers icon labeled "Supporting Documentatic". To the right of the "Audit Information" tab, there are additional icons and labels: a folder with a plus sign icon labeled "Folder"; a lightbulb with a plus sign icon labeled "Objective"; a star-in-shield with a plus sign icon labeled "Strategic Risk"; a red shield with an 'X' and a plus sign icon labeled "Risk"; a green shield with a checkmark and a plus sign icon labeled "Control"; and a gear with a plus sign icon labeled "Test" and "ADD".
